DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on October 19, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent 6,361,166 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 57-64 allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented, for example, in independent claim 1, which include spectacles that include a wrap-around type spectacle frame adapted to receive a pair of ophthalmic lenses such that each lens is rotated temporally about a vertical axis through the optical center and where each lens including a front and back surface together forming a prescription zone and a peripheral temporal zone, the front and/or back surface bearing a surface correction to at least partially adjust for errors including astigmatic errors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
